

Making a Commitment Towards Carbon Reduction

Stroma's approach aims to reduce operating costs by **up to 50%** in existing buildings.

- SBEM
- BREEAM
- ENE 5
- Carbon Reduction Commitment Energy Efficiency Scheme (CRC)
- Carbon Trust Standard Advisors
- Energy Consultancy

To find out more about how Stroma can support your business in achieving compliance and financial savings, contact Stroma on **0845 621 11 11**

Stroma offers a range of independent services for all aspects of energy performance analysis or improvement.

Whether for new build developments, existing building stock or refurbishment projects, our multi-disciplinary team can provide the necessary calculations, consultancy and reports to assist organisations in measuring, monitoring and managing their energy consumption and carbon emissions. Moreover, we can assist with the development of bespoke, practical and financially-viable improvement strategies.
