

Sustainable Homes – Sustainable Communities

7th and 8th September 2010

Norcroft Centre, University of Bradford

The Event

An introduction to the Code for Sustainable Homes with linkages to other matters both voluntary and regulatory.

This event is being organised in partnership with STROMA Certification who are involved in all matters relating to training and certification for Building Sustainability and Compliance.

Speakers include experts from Universities of Sheffield and Abertay, STROMA Certification and our own Council staff.

Cost is £50 (plus VAT) per delegate including refreshments and lunch

Note - the event is of single day duration repeated on the second date

For booking details visit www.bradford.gov.uk/buildingcontrol or telephone 01274 434996

Future Events

Following the introductory day it is intended to hold a series of courses to further explore the topics of the presentations including detail within the Code and its application to future developments.

The agenda will include:-

- **The Code:** an introduction and overview – its aims and likely breadth of impact.
- **Implementation:** it's relationship to Local Authority Environmental Planning Policy and funded social housing.
- **Case Study:** Code level 6 homes currently being constructed in Bradford.
- **Ecology:** improving and maintaining biodiversity – both within and outside the context of the Code.
- **Sustainable Urban Drainage Systems (SUDS):** already implemented in Scotland – links to the Code and how it will apply in England.
- **Building Regulations –** an overview of Approved Documents Part L and Part G relating to energy efficiency and water usage.
- **Approved Document Part L1 2010 and beyond:** changes and industry implications.
- **SAP 2009:** a summary of changes
- **Review panel and questions**
