

# Case Study

## High Street, Stratford

### Code for Sustainable Homes Assessments and Advice

#### Clients Requirements

The proposed mixed use development provides the following accommodation:

- 736 residential units
- 144 bedspace hotel
- Circa 3,000m<sup>2</sup> commercial space
- A PCT
- A nursery
- New waterside enhancements

In addition to the above, the development will have a major role in the regeneration of the area; it will signal the entrance to the Olympic Area and will provide a landmark both locally and on the London skyline.

#### Stroma design's contribution

Stroma have worked on a number of Ardmore developments of varying complexity. This is one of the largest and we have been discussing various services including:

- Sustainable design consultancy
- Code for Sustainable Homes
- EPCs (commercial & residential)
- Acoustic testing
- Air-Tightness testing
