

Block B, Northwood Park, Santry, Dublin

Stroma was appointed in November 2007 to carry out a series of site inspections, all supported with illustrated reports, designed to monitor the implementation of the air barrier on a floor by floor basis. With a target of 7 m<sup>3</sup>/(m<sup>2</sup>.hr) @50Pa, attention to detailing and the specification of robust materials within the air barrier was given due care. Testing of the building took place in April 2008 and the building achieved a figure of 6.39 m<sup>3</sup>/(m<sup>2</sup>.hr) @50Pa.

PROJECT

**Block B, Northwood Park, Santry,  
Dublin**

ARCHITECT

**JNP Architects**
