Case Study: Retail

- Client:** Jones Hargreaves
- Location:** Arnison Centre, Durham
- Contractor:** Tolent Construction

Summary:

We feel that as an Approved Inspector, we have extensive knowledge and experience within the retail sector having worked on various retail units around the country and specific retail parks over the past 10 years. From this experience, we have altered and developed our systems to satisfy our client's requirements with efficient technical support and accurate responses. We ensure they are not left to pick up the pieces associated with miscommunication.

We have recently been involved in the redevelopment and upgrading of a prestigious retail park in the North East which has included the construction of new retail pod units, upgrading and alterations of existing façades and the redevelopment of an existing large corner unit to provide space for a major anchor store. Through working closely with all parties, including the Fire Service, we were able to help provide a comprehensive Building Control service for our client, on a very restricted site.
