

Case Study: Daylight & Sunlight Assessments

Client: Willmott Partnership Homes Limited
Location: Old Mill Court, Redbridge
Architect: PRP Architects
Sector: Residential

Background:

Work was carried out to support the planning application by PRP Architects for the proposed development at Old Mill Court, Redbridge incorporating 1 No. fourstorey and 1 No. three-storey apartment blocks.

Brief:

Analysis of impact of proposed development to the amenity of daylight and sunlight to the existing surrounding buildings, taking into account site topography.

Services Provided:

Production of 3D Model of site, qualitative appraisal of the impact of the proposed development on the existing surrounding buildings, and the calculation of the Vertical Sky Components (VSC) and the Annual Probable Sunlight Hours (APSH) for the windows across the site.

Testimonial:

"Feedback from our Architect and in-house suggest that the reports have been written to a high standard with quality illustrations and references."

Graham Parkinson, WILLMOTT PARTNERSHIP
